### **Meet the women who are shaping the future of food.**

The food industry is changing, and women are leading the way. From chefs to farmers to activists, women are using their passion and expertise to make a difference in the world. They are creating new businesses, developing innovative products, and fighting for food justice. They are also inspiring the next generation of leaders in the food industry.

This book profiles 15 women who are stirring up the food industry. These women come from all walks of life, but they share a common goal: to make the food system more sustainable, equitable, and delicious.

These women are role models for all of us. They show us that anything is possible if we have the passion and the determination to make a difference.

They are also a reminder that the food industry is not just about making money. It is about nourishing our bodies and our communities.
