

# An Indigenous Call to Unforgetting the Past and Reimagining Our Future

An Indigenous Call to Unforgetting the Past and Reimagining Our Future is a powerful and moving book that explores the history of Indigenous peoples in Canada and the United States, and calls for a new understanding of our shared past and a reimagining of our future.

The book is written by Thomas King, a Cherokee writer and scholar, and is based on a series of lectures that he gave at the University of Guelph in 2016. In the book, King argues that Indigenous peoples have been largely erased from the history of North America, and that this erasure has had a devastating impact on Indigenous communities. He calls for a new understanding of history that includes the Indigenous perspective, and for a future that is based on reconciliation and justice.

King's book is a powerful reminder of the importance of remembering the past, and of the need to work towards a better future for all. It is a must-read for anyone who wants to understand the history of Indigenous peoples in North America, and for anyone who is interested in creating a more just and equitable society.
