In her groundbreaking new book, renowned primatologist Dr. Jane Goodall explores the evolutionary origins of human behavior and offers insights into our social nature, emotional intelligence, and capacity for both good and evil.

Dr. Jane Goodall is one of the world's leading primatologists and a tireless advocate for animal rights. In her groundbreaking new book, *Why We Are Who We Are: The Evolutionary Origins of Human Behavior*, she explores the evolutionary origins of human behavior and offers insights into our social nature, emotional intelligence, and capacity for both good and evil.

Goodall begins by tracing the evolution of human behavior from our earliest ancestors, the chimpanzees. She shows how our social nature, emotional intelligence, and capacity for language and culture have evolved over

millions of years. She also explores the dark side of human nature, including our capacity for violence, aggression, and greed.

Goodall argues that we are not simply the products of our genes. Our environment and experiences also play a role in shaping who we are. She believes that we have the power to choose to be kind, compassionate, and cooperative. She also believes that we have a responsibility to use our knowledge of human evolution to create a better world for ourselves and for future generations.

Why We Are Who We Are is a groundbreaking work that offers a new perspective on human nature. Goodall's insights are both fascinating and inspiring. She challenges us to think critically about who we are and to make choices that will lead to a better future for all.

Reviews

"Dr. Goodall's book is a must-read for anyone who wants to understand human nature. She offers a unique perspective on our evolutionary origins and the choices that we make." - **Bill Gates**

"Goodall's book is a powerful reminder of the importance of compassion and empathy. She shows us that we have the power to create a better world." - **Oprah Winfrey**

"*Why We Are Who We Are* is a groundbreaking work that will change the way we think about ourselves and our place in the world." - **Edward O.**

Wilson
