## Progress: Fostering Equitable Economic Growth

The book challenges the status quo, arguing that economic growth should not be an end in itself but rather a means to achieve sustainable progress. It outlines a comprehensive framework for fostering inclusive economic growth that benefits all sectors of society. Through innovative policies and transformative investments, the book envisions an economy that empowers local communities, reduces inequality, and ensures decent work for all.

## **People: Putting Human Well-being at the Center**

'Global Economy That Works For Progress People And Planet' recognizes that the ultimate measure of economic success lies in the well-being of its people. The book advocates for policies that prioritize social justice, human rights, and access to essential services. It challenges the notion that economic growth and social progress are mutually exclusive, instead presenting a compelling case for an economy that values human dignity and empowers individuals.

### **Planet: Safeguarding Our Earth for Future Generations**

The book emphasizes the urgent need to address the environmental crisis facing our planet. It proposes a comprehensive set of solutions for transitioning to a green economy that decarbonizes industries, protects biodiversity, and ensures sustainable resource management. By investing in renewable energy, promoting sustainable agriculture, and fostering eco-friendly practices, the book envisions a global economy that operates within the boundaries of our planet.

## **Global Cooperation: A Catalyst for Collective Action**

'Global Economy That Works For Progress People And Planet' recognizes that no single country or organization can address the complex challenges facing the global economy alone. The book calls for strengthened global cooperation, urging governments, international organizations, businesses, and civil society to work together towards shared goals. It emphasizes the importance of multilateralism, fair trade practices, and global solidarity to create a more equitable and sustainable world economy.
